Anime Club (D5)	Star Singers (M2)	Carleton Student Band (M2)
Tech Club (D1)		Cooking Club (D4/D7)
Yr7/8 Boys Rugby		Table Tennis (8:00am-8:40am)
KS3 Netball		Yr7/8 Girls Rugby

Practical Power Hour

An opportunity for students to make, do and further explore the practical side of science. Covering and linking all three sciences into some of the best and most exciting demos, students will get to see and do more than in lessons completing extra experiments and challenges using their knowledge of science to solve problems and investigate the fascinating world around them. Think more flames, more dissections, more rockets and more shocks!

Secret Garden Club

An opportunity for students to have the hands on experience of gardening, a skill that will last them a lifetime, teach them all about how our food is grown and have fun digging at the same time. They will also have the pleasure of harvesting and then eating or taking home what they grow.

A Christmas Carol Service

Exciting rehearsals for the Christmas show where we will block, rehearse and put the show together as part of a team. This is a wonderful opportunity for those who want to perform their fantastic talents to an audience.

Tech Club

Offers students the opportunity to make exciting products in the creative technology workshops. They will experience such processes as 3D printing and computer aided manufacture as well as traditional workshop techniques.

Anime Club

An opportunity for students to learn and develop their skills and techniques to draw anime characters

A Taster in Mandarin

Jump aboard the Orient Express with Miss Lopez for a taster course of Mandarin, where students will learn to talk about their age, family, pets and much more.

Dance Factory

A fun, active and exciting dance class inclusive of ability. Building confidence is key. Students will learn teacher led routines as well as creating their own choreography.

HistoryFlix

Come and watch movies based on historical events and then assess how accurate they are to the reality of the time. Consider how each character is portrayed, the events shown on screen and analyse whether fiction matches fact. Students will watch movies ranging from A Knights Tale to Robin Hood, Pearl Harbour to Boy in the Stripped Pyjamas. So come along to the History Department and join the discussion of where history meets the movies. Popcorn optional!

Books and Beyond

A fabulous opportunity to engage with your favourite books through drama, reading, film, art, creative writing, sport, and much more! This term's text is Harry Potter.

The Carleton Times

Be involved in the creation and publication of a brand new school newspaper – run for Carleton pupils by Carleton pupils.

We're looking for driven students to oversee the whole project in Editor and Deputy Editor Roles. In addition, students with a love of writing or sniffing out a story should get involved. Investigate and report the stories that matter to Carleton High School students.

If you want to apply to be editor, please contact Mr Cowlshaw.

Carleton Student Band

Carleton student band is a time for students to either learn or perfect their instrumental or vocal prowess. Come along after school and get performing!

Geography Society

A great opportunity for students to have their say and get involved in improving our school's green credentials. Students will help create new ideas and ways that we can improve our school to become more environmentally friendly.

Cooking Club

Will be an opportunity for students to learn about how different ingredients are used to create interesting, healthy and tasty snacks and meals as well as developing an essential life skill.

Star Singers

An opportunity for students to develop their voices as well as gain extra practice for the school production. Don't miss it ... you could become the next Ariana Grande!
